

Current project Streams

PROJECT DURATION JULY 2020 - JUNE 2022

Scenic Rim Mural Project

Designed to celebrate connection to place and represent the communities shared experience of the bush fires. This project will commission and install community murals, designed to celebrate our connection to place and represent our shared experience of the bush fires. These murals will be created across Beechmont and other fire impacted communities in the Scenic Rim Region. These murals will serve as inspiration for the Beechmont recovery as they continue their rebuilding and nurturing of the environment that they live in.

Memoir Project

We will gently gather stories of our experience. This project will bring together a digital, audio visual and hard copy collection of stories, poems, interviews, photographs and artwork to become a tangible record of our experience - our story. A story of community resilience, recovery and regeneration. With permission and in consultation with contributors, gathered stories will also inform a contemporary performance piece titled 'Leave Now'.

Exhibition

@the Centre Beaudesert September - October 2021

Curate a group exhibition that responds meaningfully to the Bushfire experience that impacted many communities across Australia last Spring and Summer. A range of artistic medians will explore the impact of bushfire and the themes of recovery, resilience, and regeneration.

Workshop Program

Delivered by Artists within the community.

We aim to offer a workshop program that builds community connection, capacity and resilience. This program can include wellness workshops, art therapy, creative activities, master classes, creative industries development, creative makers workshops, performing arts and more.

Future Project Streams

Leave Now a contemporary performance piece/ play that explores the experience of evacuation, unpacks the question 'what did you pack'?

Community Sculpture to celebrate a sense of belonging to place
