

# Our Values

## **Recovery and Resilience**

Listen deeply and respond to complex and challenging needs of a community in disaster impacted communities.

Nurture healing and recovery process by providing a safe platform for people to share their stories.

## **Community Engaged Practice**

Community-engaged practice and process of creating and showcasing.

A collection of projects across a variety of mediums capture the diversity and vibrancy of our creative voice.

Our collective stories, skills and intentions.

## **Community Capacity**

Shape the creative process and product.

Community and cultural consultative process underpinning the project will activate a sense of belonging to place.

Strengthen community connections, creative networks and community cultural development capacity.

Provide Mental Health First Aid training, professional development and skill sharing opportunities.

## **Regional Employment and Economy**

Employ and empower local Artists, Artworkers, Cultural workers, and Health workers

Support local organisations, industry, business, suppliers and venues.
